ASSIGNMENT CHECKLIST

INSTRUCTIONS:

1. Print a copy of this checklist.

2. Go through the list and check each item as appropriate.

3. Sign and deliver the checklist to one of the teachers.

CHECKLIST:

☒ The code is consistently formatted.

☒ All top-level entities are documented using Doxygen[1].

☒ There are separate header and source files.

☒ The code is modular in its design.

☒ There is a makefile that builds the program.

☒ There are instructions for how to configure and use the makefile.

☒ The code builds without warnings.

☒ There are instructions for how to run the program.

☒ The program runs without errors.

☒ The output is self-explanatory.
